SUMMARY

Software Engineer with 4+ years of frontend experience building production applications with React, TypeScript, and JavaScript. MS ITM candidate at UT Dallas seeking Summer 2027 Software Engineering internships.

EDUCATION

The University of Texas at Dallas, Richardson, Texas **Aug 2026 - May 2028**
Master of Science, Information Technology and Management
Coursework: Database Management, System Analysis and Project Management, Object Oriented Programming in Python

Visvesvaraya Technological University, Mangaluru, India **Jul 2017 - Aug 2021**
Bachelor of Engineering, Computer Science
Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks

PROFESSIONAL EXPERIENCE

Senior Software Engineer, Frontend - ZEE Entertainment **Jan 2025 - Jun 2026**

- Engineered **custom TV spatial navigation** in React, eliminating focus issues for **smoother remote interactions**
- Developed a **reusable rail-rendering engine**, accelerating development of new TV search layouts
- Redesigned TV search layouts and recommendation rails, contributing to **~7% higher click-through rates**
- Architected a **schema-driven telemetry layer**, reducing analytics payloads 35% while maintaining data quality
- Implemented **GraphQL APQ** with automatic fallbacks, reducing API request sizes and network usage
- Increased **test coverage from 58% to 82%** using Jest, React Testing Library, and Cypress

UI Engineer - Straumann Group **Aug 2023 - Sep 2024**

- Proposed and prototyped an **AI-powered implant-success predictor** for clinical treatment planning
- Led **micro-frontend** migration, enabling independent deployments through shared state and application contracts
- Introduced **self-service localization**, enabling product teams to manage translations across **6+ markets**
- Established frontend **performance guardrails**, improving **load times 25%** and preventing performance regressions
- Designed a **config-driven form** engine with reusable components and rules, accelerating new-form development

Software Engineer, React - Virtusa **Nov 2021 - Aug 2023**

- Standardized **WCAG accessibility** across 3+ healthcare apps, improving **cross-browser usability** and reducing defects
- Improved FCP by 20% and LCP by 18% through critical-rendering-path optimizations, accelerating page loads
- Developed reusable **onboarding tours** with behavioral analytics, reducing user drop-offs by 10%
- Built **AI-assisted rich-text editing** with Grammarly and live scoring, streamlining **report creation**

SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Frontend: React, Redux, React Hooks, HTML5, CSS3, Responsive Design
APIs & Architecture: GraphQL, REST APIs, Micro-frontends, Axios, Internationalization (i18n/l10n)
Testing: Jest, React Testing Library, Cypress
Performance & Accessibility: Web Performance, Core Web Vitals, Web Accessibility
Tools: Git, Webpack, npm, Docker, Azure DevOps, Jira, Figma

PUBLICATIONS, HONORS, AND CERTIFICATIONS

Oracle Certified Associate, Java SE 8 Programmer
Winner, Inno Week - Smart Treatment Plans
“CANFOOD: An Android Food Ordering Application for College Cafeteria,” IJIRSET, 2021
